The Company’s Interim Financial Statements are prepared and presented in accordance with U.S. GAAP. The Interim Financial Statements may be adjusted in connection with the audit of the Company’s financial statements for the year ended December 31, 2018. In addition, accounting estimates and assumptions made in preparing the Company’s consolidated financial statements as of and for the year ended December 31, 2018 may differ from that used in the Interim Financial Statements due to the differences in reporting periods and changes in the Company’s financial conditions during those periods. As a result, the Company cannot assure you that its consolidated financial statements as of and for the year ended December 31, 2018 will not contain significant differences, adjustments or discrepancies from the Interim Financial Statements. The Company’s historical results do not necessarily indicate results expected for any future periods.
